

Follow-up applications Libertas Support Fund

If you are already a scholar of the Libertas Support Fund and you wish to continue your studies in the Netherlands with a scholarship from the fund, you need to submit a follow-up application for the next academic year.

Conditions

The following conditions apply to follow-up applications:

- no more than four times for a bachelor's programme in research-oriented education (*wetenschappelijk onderwijs*);
- no more than five times for a bachelor's programme in professional higher education (*hoger beroepsonderwijs*);
- no more than two times for a master's programme in research-oriented higher education; however, a subsidy may be awarded no more than three times if the total number of study credits available for a programme is 120;
- no more than two times for a master's programme in higher professional education;
- applicants may apply for a subsidy for both a bachelor's and a master's programme.

The scholarship

The scholarship includes the following components:

- reimbursement of tuition fees;
- a monthly allowance of €1,000 including a standard contribution towards healthcare insurance;
- visa fees (standard contribution);
- a one-off payment towards international travel costs (standard contribution based on country of origin).

The procedure: step-by-step

- In April EP-Nuffic informs all Libertas Support Fund contact persons at the Dutch higher education institutions about the follow-up application procedure.
- EP-Nuffic provides the contact persons with the relevant documents that have to be filled in.
- He/she completes the forms and asks the student to sign it.
- The contact person then sends all the required documents to EP-Nuffic.
- EP-Nuffic checks whether the documents are complete and correctly filled in.
- If the follow-up application is complete and correct, it can be submitted to the Minister of Education, Culture and Science.
- The Minister's decision is sent to the scholarship student and to the contact person at the Dutch higher education institution.
